'75 on Rathfelder' is a brand new residential development in the heart of Upper Constantia.

It is a project brought together by DCCD Property Developers, in collaboration with Mira Architects.

It is inspired through a modern take on a barn style architecture, which forms the frame work of the houses, providing for a contemporary sophisticated environment.

The site is set on the pinnacle of Rathfelder Avenue, overlooking the Rathfelder Meadow with extended views of Table Mountain, Devil's Peak and False Bay.

The development consists of three separate luxurious dwellings, making up the estate of '75 on Rathfelder'.

The development is designed specifically to be of a lock-up and go nature, with low maintenance and running costs, while still providing for a safe luxurious lifestyle.
